ABOUT DEBS' ARREST.

He Says That It Was an "Infamous Outrage."

Howard, Keleher and Rogers Were Also Arrested.

BAIL FOR \$10,000 GIVEN

All of Debs' Correspondence Seized and Confiscated.

Chicago, July 11.-The federal grand jury yesterday afternoon returned indictments against Eugene V. Debs, president of the American Railway union; George W. Howard, its vice president; Sylvester Keleher, secretary, and L. W. Rogers, one of its directors, and shortly thereafter the men were arrested. They are charged with conspiracy to commit an unlawful act, that is, to block the progress of the United States mails. Joined in the indictment with the four leaders of the railway union was James M. Murwin, the Rock Island striker who threw the switch which derailed a mail train at Blue Island on the night of June 00

Debs, Howard, Keleher and Rogers were taken into the office of District Attorney Milchrist immediately after their arrest, and after a few hours detention were released on ball by Judge Grosscup, their bonds being \$10,000 each.

The bondsmen are Alderman Fitzgerald, who qualified to the sum of \$250,000, and William Skakel, who qualified for \$50,000.

The federal grand jury spent but a short time on the case of Debs and the other leaders of the strike. The case against them for conspiracy had been prepared some days ago by Attorneys Milchrist and Walker, and the grand jurors had not been at work two hours when the indictment was ready to be presented in court. It was based on some of the public utterances of Debs and the other leaders, and this was clinched by the original orders in writing sent out by Debs directing men on the different railways to quit work, and this stopped the running of mail trains. A large number of telegrams sent

by Debs and from his headquarters, giving directions which extended the blocade of the trains, were submitted to the grand jury by E. M. Muiford, manager of the Western Union telegraph company, under a subpoena issued by the United States court, Judge Grosscup overruling the telegraph company's protest that the messages were privileged documents

and exempt from seizure.

While the ball was being arranged Attorney John F. Graeting joined the party in the district attorney's office. He was retained by the railway union officers on Monday evening to assist in their defease in case they were arrested. Mr. Greeting said the defense of the men will be directed by Clarence S. Darrow, who is the attorney of the union. The indictment against Debs, Keleher, Howard, Rogers and Murwin is founded on sections 5508 and 5336 and 5536 of the federal stat-

An Interview With Debs.

While waiting for bail to be arranged, Debs, in an interview, said: "We have been placed under arrest to answer to su indistment found against us by the federal grand jury. in which we are accused of conspiracy to commit, and of committing, offenses against the United States by obstructing and interrupting the mails of the country. Our ball has been fixed at \$10,000. We don't know when the case will some to trial. Since I have been brought here, I have been informed that officers of the court have gone to our headquarters in the Ashland block and taken my personal correspondence and some of the records of the A. R. U. I do not know by what right this act has been committed. It seems to me to be an infamous outrage. Not only did they take my personal effects and papers, but carried away with them my unopened mail I have never heard of that before in this country, and I do not wish to speak further about it until I am informed by what right the act was committed. In Russia, and not out of that country, have such things been done. It seems like the act of the ezar of Russia, instead of the act of a free country. The seizure was made by an officer of the court and the postoffice officials. I am not running a lottery and I cannot understand under what law the postoffice suthorities are a party to the seizure of my private mail. It is an outrage and you call this a free country. It seems to me not to be compatible with the stars and stripes. It is no longer a question of right in this country, but a question of force and absolute force

"As to the arrest, I have absolutely nothing to say. We have not committed any offense or crime. We are responsible for our nets and will answer at the proper time and ablde the consequences. The arrest will not deter us from our work. We will go on just exactly as we have done. If we were to do differently it would be an admission we have been in the wrong.

District Attorney Milchrist Talks. District Attorney Milchrist, when questioned about the seizure of the effects of Mr. Debs, said: "These men were arrested on a subposum duces tecum, a perfectly legal operation. whereby they are commanded to bring with them everything apper. taining to their business. In this case we have a corporation to deal withthe A. R. U .- the effects of that organization can be brought into court on a warrant of the kind issued to-day. These men were indicted as officers of their orgamizations for offenses committed as

"When the officers went to the office of the union none of the officials were there. Under the subpensa they had a right to take the effects of the organization, and did so. Mr. Deba will discover in due season the act was perfectly legal. I will say, however, that if the officers of the court took any of Mr. Debs' private mail it will be returned to him unopened. The stuff is now locked up in the safe. Whatever there is of a personal nature will be returned, but I will say that no letter will be returned to Mr. Debs which is addressed to him as president of the A. R. U. None of the letters or documents or papers will be opened until an order is given by the court, and they will be kept in the safe until such an order is made. They are a part of the evidence of this court to be used in the trial if anything should be found in them of a criminating character in the line of criminating character in the line of the charge upon which they are in-

Battle Between Miners and Troops at Spring Valley, Ill.

SPRING VALLEY, Ill., July 11 .- Company C of the Fifth regulars, commanded by Captain Conrad, came into collision with the mob at this place yesterday, and afterpatiently enduring volley after volley of stones, fired into the mob, killing two men and wounding several others. The casualties are as follows:

Killed. Dominick Barrings, Italian, shot through the head John Salok, Italian, shot through the Wounded.

Walter Gregory, deputy, ribs broken, badly Lush Kolp deputy, shot in the thigh
S. T. Powell deputy, shot twice in face.
Unknown italian rioter shot by Powell
Unknown rioter, hand and arm badly lacerated by bayonet while militia clearing the
streets

The fight occurred at 4:30 o'clock last evening when a Rock Island train bearing the troops pulled into the depot. At the time of its arrival a large mob of Poles, Lithuanians and Huns were gathered upon the hill overlooking the depot. The arrival of the train was greeted with yells and jeers, and stones began to rattle down on the depot platform before one of the soldiers had left the cars.

As the men filed out on the depot platform they were greeted with a chorus of yells and the stones rained down around them. Captain Conrod raised his hand and called to the mob to cease throwing stones. It obeyed him an instant, but, seeing the troops remain passive, regained its vicious-ness, and sent volley after volley of stones at the soldiers, at the same time drawing closer and becoming more threatening. Captain Con-rad ordered his men to aim, and as more stones came at the regulars be gave the word to fire. The mob broke for the time being when the firing began and has not assembled since. The troops went back to Chicago.

Early in the morning as a party of deputies was traveling from Princeto Springvalley in wagons, some strikers in ambush fired upon them, wounding Deputy S. T. Powell in the face. The fire was returned and one man was seen to fall. He was, how-ever, carried off by his companions, and the extent of his injuries is not

THE STRIKE BROKEN.

So Says the Chairman of the General Managers' Association. CHICAGO, July 11.-The following

statement was issued last night by Chairman Egan, of the general managers' association:

To-day the railways in the city of Chicago handled their usual number of through passenger and mail trains. Many of them have resumed suburban service. The number of freight trains, both in and out of the city, on all lines, has largevesterday. The backbone of the strike was broken yesterday. Nearly all of the requisitions for men wanted by the different railways have been filed. The railway companies have nothing to say as to the prosecution of individuals who have violated the laws. That matter is left in the hands of the government John M. Egan."

TALKS ABOUT A CRISIS.

The Peace of the Nation Endangered, He Says.

CHICAGO, July 11.-Knights of Labor throughout the country, numbering nearly 1,000,000 men, have been called upon to strike for the cause of organized labor. General Master Workman Sovereign issued an order late last evening to all members of an compete with the Tasmanians and the organization to cease work until Australians in wood-chopping conthe conflict originating in the strike of the Pullman employes shall have been settle Following is the text of and 29, 1894, for which I enclose a the order:

"To the Knights of Labor Greeting:
"Chicago, July 10.—Acrisis has been reached in the affairs of this nation that endangers the peace of the republic. Every fiber in our civil struc-ture is strained to the breaking point. The shadows of factional hatred hover over our fair land with terrible forebodings. The arrogant lash of superiority is being applied by the the classes is growing deeper and wider with each succeeding day. If peace is restored, and this nation is saved from acts repulsive to the conscience of all Christian people, there must be wise action, and that quickly.

"Sincerely believing that the flames of discord are being purposely fanned by the realization and the conscience of the conscience

by the railway corporations, at the risk of the life of the government, I take the liberty to appeal to you, and through you to the conscience of the whole people, imploring you to lay down the implements of toil for a short season, and under the banner of peace and with a patriotic desire to promote the public welfare, use the power of your aggregated numbers through peaceful assemblages to create a healthy public sentiment in favor of an amicable settlement of the issues growing out of the recent strike of the Pullman employes; and you are further requested not to return to your usual avocations until a settlement of the pending troubles are made known to you through some authentic source. In the present strained relations between corporations and their employes is involved a principle near and dear to all American citizens, the right of labor to pre-

sent its grievances to the owners and representatives of corporate capital.

The Pullman Palace Car company refused to arbitrate the differences between itself and its employes on the ground that cars were built below cost and therefore there was nothing to arbitrate. But the conclusion of if such were the true facts it would have nothing to fear at the hands of an arbitration committee. But the Pullman company goes farther in its autocratic policy than a refusal to arbitrate. It has refused to join with the business men and the board of aldermen of Chicago in a committee to discuss the question as to whether there is anything to arbitrate or not, and behind this autocratic policy stands the Managers' association of the railway corporations, backed by the United States army as the aiders.

and abettors of this social crime.
"Suppose the Pullman company had invited organized labor to arbitrate and organized labor had declined the invitation and refused to discuss the question as to whether there was anything to arbitrate or not, it is needless to say a wave of popular indignation would obliterate every labor organization from the face of the country, and no more could be formed for the next fifty years. The stigma of such a posit on would follow every name connected with organized labor to the grave. But in the present crisis the corporations, whose wealth has been created by labor, takes the position that they are prior and choke their creator. Like the brigands of old, they rob the laboring masses and employ the sword and the bludgeon and set up a throne on the vanquished and declare their divine right to rule

over the balance of mankind. The Pullman company claims that notwithstanding the wages of their employes were reduced to the starving point there is nothing to arbitrate because cars have been built at a loss, yet it neglects to state that the stock of the company has been watered three times over and that the company has not only been able to may its regular dividends on water and all, but that it's stocks have long been and are at the present time at a premium on the stock markets. Mr. Pullman cries poverty to his starving employes and then retreats to his princely summer mansion on Pullman island in the St. Lawrence river and

voted inartyrs burn.
"If the present strike is lost to labor, it will retard the progress of civilization and reduce the possibility of labor to ever emancipate itself from the thraldom of greed. The dignity of labor and all the victories won in the past are at stake in this conflict. I beseech you to be true to your obligations in this hour of trial. Court the co-operation of the gener-ous public. Stand firm and united in our common cause, and the victory will be one of peace and prosperity for the faithful.

"J. R. SOVEREIGN,
"Grand Master Workman."
All Knights of Labor assemblies in Chicago were notified by the district master workman to take action on the plan adopted at the recent labor conference, all members being ad-jured to maintain peace and order.

AXMEN OF THE PACIFIC COAST. Iwo Experts to Be Sent to Australia to See What They Can Do.

There are probably no more skillful choppers of the Pacific Northwest. Some of them can saw or chop a tree that will fall in any desired direction, and it is ever said that they can drive shall bury the stake out of sight. Two of the picked lumbermen of the Northwest are to be sent over to Australia to compete with their fellow craftsmen in that part of the world. The following letter to the Puget Sound Lumberman from Latrobe, Tasmania, explains the manner of the competition in which they will be entered: "In your issue of September, 1893, you mentioned the United Australasian Axmen's association, and also the fact that you have splendid axmen in the Pacific Northwest. Now these latter are just what we want to reach, because we want the best men among them to come and see if they tests. We hold our next annual contest in Ulverston, Tasmania, Nov. 28 program. We are offering liberal prizes, and if two competitors come from the Pacific Northwest-and come by reference from you that they represent your country in these contests -we will guarantee them £25 (\$125) each for traveling expenses, or £59 (8250) for the two; besides we will give free entry to all contests. They will have to meet our champions on level terms in the championship contests, but if they enter handicaps they will get starts from our best men. Private matches could also be arranged.

AUSTRALIAN BOOMERANGS. Pe te Tells What a Clever Bushman Did With One of Them.

"Yes, ther cur'os'ties!" said Australian Pete, when the subject of boomerangs was mentioned. "You've seen the mysterious stick thrown?

"Well, I reckon!" "Is it true that they cut so many

strange didoes in the air?" "Can't bedescribed. I remember once seein' a bushman named Hullaloo throw a boomerang in an exhibition before some English officers. He was a lithe, wiry fellow, an' didn't look as though he could knock down a cat. Takin' the crooked stick in his hand he fixed his gaze on a spotabout seventy live yards in front of him, an' giving the stick an awkward whirl he struck the exact spot. Then it bounded 300 feet in the air, an' came flutterin' down like a wounded bird, until within six feet o' the ground, when it flew across in front of us an' began to circle gracefully upwards.

It went, an' went-' "Ah, and returned, killing a rabbit fifty yards behind you?" "No. sir!"

"Perhaps killed a dove on a tree far to the right-"

"Not much!" "Came down without hurting anything?" "No sir! It never came down. It

The Man Wanted to Get Married, But the Law's Delay Blocked Progress. A man with a whip in his hand and muddy cowhide boots upon his feet tramped up Into City Clerk Alien's room in Lewiston, Maine, and demanded: "Can I get married here?"

"You can take the first steps to-"First steps? I have taken the first steps for the last six or seven years, and now I'm going to finish it up. I want to be married right off. My gal is down there holdin' the horses, and if you'll marry me, I'll hitch 'em and she'll come up. Hey?"

'You will have to get published and wait a while before you get married." "Wait! Wait! By the sweet apple tree, I won't wait. Jane's been telling me to wait all these years, and I'll be cussed if I'll wait. Wait! Pooh! See here, young fellow, if you don't marry me I'll have you discharged. I'm forty years old and my own man. I won't be fooled with."

The clerk finally explained to the man that the law required him to wait, and he consented and was pub-

A Man With a Double Heart

When the Mercer county, N. J., medical association was in session a few years ago a colored individual named Wm. King came before them for examination. He claimed to have two hearts, but a careful examination revealed the fact that his heart was double instead of being two separate blood-pumping organs. Besides havwires the business men of Chicago ing two distinct pulsations, which that he has nothing to arbitrate. Like could easily be felt, he had wonderful a Nero, he laughs in luxury while decontrol over his double life engine, being able to stop its beating for sixty seconds without inconvenience.

Their "All's Well" Signal.

They tell a pretty story of a young woman in Maine who left the parental home about a Gozen years ago, setting up a new home of her own three or four miles distant as the crow flies, but in sight of the old homestead. Cooling a Room.

Those who have tried the experiment affirm that a large sponge hung in the room at night or in the day time, if it can be behind a convenient screen, and kept constantly wet, will greatly assist in keeping the room cool, or a cloth hung in the window over the blind, will cool the zoom as if a shower had fallen.
